2. Introduction

The Local Government Municipal Systems Act (*Act 32 of 2000*) stipulates that a municipality must collect all money that is due and payable to it, subject to the act (*Act 320 of 2000*) and any other applicable legislation and the Municipal Finance Management Act (*56 of 2003*).

The Municipality must adopt, maintain and implement a credit control and debt collection policy which is consistent with its rates and tariff policies and complies with the provision of the Local Government Municipal Systems Act (*Act 32 of 2000*)

The municipality, in adopting this policy on credit control and debt collection, recognizes its constitutional obligations to develop the local economy and to provide acceptable services to its residents. The municipality cannot fulfil these constitutional obligations unless it extracts payment for the services which it provides and the taxes which it legitimately levies in full from those residents who can afford to pay, and in accordance with its indigent relief measures for those who have registered as indigents in terms of approved indigent policy.

It is vital to the long term financial viability of any municipality that it collects the revenues (such as levies, tariffs, rates and taxes) due to it for services rendered. In terms of Section 96 of the Local Government Municipal Systems Act 2000, a municipality:

- must collect all money that is due and payable to it, subject to this Act and any other applicable legislation; and
- For these reasons, the implementation of the credit control and debt collection policy cannot be compromised.

3. Aim

This policy aims to address the key issues and challenges of credit control and debt collection. The strategic aim is to create an enabling environment in which the objectives of credit control and debt collection can be realised.

4. Objective

The Objective of this Policy is to:

- a) Focus on all outstanding debt as raised on the debtor's account;
- b) Provide for a common Credit Control and Debt Collection Policy;
- c) Promote a culture of good payment habits amongst debtors and instil a sense of responsibility towards the payment of municipality accounts and reducing municipal debt;
- d) Subject to the principles provided for in this Policy, use innovative, cost effective, efficient and appropriate methods to collect as much of the debt in the shortest time possible without any interference in the process;
- e) Effectively and efficiently deal with defaulters in accordance with the term and conditions of the policy.

5. Principles

- a) Human dignity must be upheld at all times.
- b) The policy must be implemented with equity, fairness and consistency.
- c) Non-payment by debtors of their municipal accounts has a direct negative impact on the Municipality's ability to render services to its clients and in general to meet its objectives as prescribed for in section 152 of the Constitution of the Republic of South Africa, 1996.
- d) Municipal service charges and taxes not paid before or on the due date as indicated on the statement/invoice will be considered to be in arrears and all debtors who are in arrears will be subject to credit control and debt collection measures. The right of access to, and consumption of, services can only be exercised by consumers who are not in arrears on their municipal services accounts or who are complying with the conditions that were arranged with the Municipality to pay off such arrears in terms of the Policy.

- e) The municipality reserves the right to terminate municipal services to a property even if the account of a third party person occupying a property or premises may be paid up to date in the event of the owner failing to honour his or her or its commitments for payment of rates and taxes or other municipal charges. The right to municipal services of a consumer who is not the owner of a property is always subject to the right of the owner. Therefore, should the owner fail to comply with his or her obligations to the municipality, the municipality will be at liberty to apply credit control measures that may include the termination of municipal services to a property.

Furthermore, the right of a person who is not the owner of a property is subject to the lawful permission granted by the owner, which permission could be withdrawn by the owner for reasons unknown to the municipality. Should the owner at any stage give notice to the municipality in the prescribed format to that effect, the municipality may be at liberty to terminate or restrict any municipal services to a property, provided that the owner will bear all costs, including legal costs, should such termination or restriction, as the case may be, result in any legal action.

The owner will at all times be entitled to access information on the stance of any account or liability to the municipality of a tenant or occupier of his or her or its property, and municipality will be obliged to disclose such information at the request of the owner.

The municipality agreement on the supply of services will reflect the above as well as the Credit Control and Debt Collection Policy and the By-Law in general.

- f) In terms of section 102 of the Local Government: Municipal Systems Act, 2000 (Act 23, 2000), payments received by the municipality from its debtors will be allocated at the discretion of the municipality against any amount owed by such a debtor to the municipality, unless specifically otherwise indicated in writing by the person making payment.
- g) Various methods of payments by debtors as well as sufficiently convenient payment points are available and communicated to debtors.
- h) As arrear municipal debt in excess of 60 days, interest is levied monthly and calculated at 10% per annum. Interest levied but not paid is included on the arrear amount of such a debtor. Since arrear VAT is not a municipal debt, no interest is charged on it. The municipality pays VAT to the South African Revenue Services only after it has been collected successfully from debtors.

Interest in accordance with arrangements for the monthly payment of arrears will be calculated on a monthly reduced balance of the arrears at a fixed rate throughout the period and the rate will be the current rate as on the contract date of the arrangement.

- i) Credit control measures are applied with proactive reminder or warning. Account statements that are sent to debtors will, to the extent that the account may be in arrears, be regarded as a legal notice of demand for payment of the Arrears reflected on the account and a reminder of intention to take credit control measures.
- j) Metered services consumed by an unknown consumer are billed to the owner of the property to which the service connection is registered.
 - I. The municipality only opens accounts for owners of the properties concerned. Hence no tenant account will be completed by the owner of the property. The existing tenant accounts will be phased out upon the closure of the rental and municipal service agreements concerned. This excludes service agreements on municipal properties.
 - II. Individuals and businesses with agreements to lease properties from municipality and government departments will be allowed to open an account in the name of the lessee.

Electricity consumption of consumers of the Lesedi Local Municipality will be metered through a prepayment and conventional devices.

- k) Lesedi Local Municipality will not accept any cheque payments; all payments to it must be made in cash, of by credit card, bank-guaranteed cheque or electronic fund transfer. This also applies to all third parties, vehicle licences and other municipal services that are paid on behalf of Lesedi Local Municipality.

Refusal by banks to honour payments by cheque or debit order is regarded as non-payment, which makes the relevant debtors subject to credit control measures. The bank charges incurred by the municipality will also be levied to such debtors' accounts.

- l) Consumers who make no further use of any services but still owe an amount are inactive debtors who, after the submission of a second inactive account statement to their latest known postal address, are handed over for legal action. Limited action (i.e. a final letter of demand) is taken against inactive account smaller than R3 000 due to the cost-benefit

ratio of such cases. Any further action required for these individual accounts is at the discretion of the Accounting Officer. When services are discontinued or restricted and the customer applies for services at a different address, the Municipality reserves the right to transfer any outstanding debit amounts to a customer's new account, or refuse to enter into a new supply agreement unless the previous arrear amount/s have been settled to the satisfaction of the Accounting Officer.

- m) Consumers will be contacted by telephone, SMS, Email or MMS, but the credit control and debt collection measures contained in the Policy will go ahead.
 - n) Residential households' consumers/debtors from the distinct group to whom the following special measures and exceptions apply:
 - I. Water supply to defaulting residential household consumers will not be completely discontinued, but rather be restricted for health reasons. Other consumers who are in default will be completely deprived of the service until adequate arrangements are made with the municipality for reconnection of service.
 - II. Any interest-free arrangements for payment of arrears in terms of the Policy are intended to assist debtors who are in arrears so as to make their current monthly accounts affordable.
- All notifications served to the domicilia of debtors will state the reason/s for actions taken and supply sufficient information as to how they can take corrective action in order to restore municipal services to the consumer.
- o) If it is necessary to disconnect, terminate or restrict any service in terms of the policy, the free cross-subsidised portion of that service, in terms of the municipality's tariffs for municipal service delivery, will also not be available for as long as those services remain disconnected.
 - p) Indigent customers, as specified in the indigent Policy, will be allowed to register for indigency ONLY once in a year, after termination of their indigent status. The onus of proof that a person is registered as indigent vests in the person claiming such benefits.
 - q) According to the Indigent Policy mentioned in P, all arrear debt on an indigent customer's account is written off after the customer's registration as such. Normal credit control and debt collection will be instituted against defaulting indigent consumers.
 - r) To make services more affordable for indigent households, the provisions of the Indigent Policy are adhered to.

- s) Debtors may be referred to 3rd party debt collection agencies and may be placed on the National Credit Rating List
- t) The terms and conditions as contained in any prescribed form or document utilised in implementing this policy, forms part of this policy and is incorporated therein as specifically stated.
- u) The suspension of any debt management action, when interrupted for whatever reason, shall, where practical, continue from previous action taken.

6. Credit Control Measures

To ensure that all money due and payable to the Municipality in respect to rates, fees of services, surcharges on such fees, charges, tariffs, interest which was accrued on any amounts due and payable in respect of the foregoing and any collection charges are collected efficiently and promptly, the Lesedi Local Municipality put in place the credit control measures.

The Municipality officials will always embrace the spirit of batho Pele and treat all debtors with dignity and respect all the times. The municipality staff will execute their duties in an honest and transparent manner whilst protecting the confidentiality of information in accordance with access to information act.

6.1 Reminder/Demand Letter for Payment

A letter of reminder/demand will be generated and send to the debtor advising him/her that his/her municipal account has not been paid on the due date. The reminder/demand letter gets delivered to the postal address of the debtor or hand-delivered to the physical address. This letter will clearly states that if the amount is not settled within fourteen (14) days or proper payment arrangement not entered into, the services to the debtors premise will be restricted and/or terminated. The account of such debtor gets debited with the cost of such letter at an approved tariff of the municipality.

If prepayment of meters for the vending of services have been installed, further vending of those services will be blocked to consumers whose municipal account/s are in arrears. The reason for such blocking will be given to the individual consumer at the municipal vending station or payment point.

The municipality also reserves the right to install a prepayment meter if there have been three defaults on arrear payment arrangement.

6.2 Electricity Disconnection and Water Restriction

Should a debtor not respond within the specific period stated in the reminder/demand letter, the electricity supply to the premise of the debtor or consumer will be discontinued and the

reason for the discontinuation will be supplied to the debtor/consumer. The account of the debtor is then debited with the cost of the disconnection at an approved tariff of the municipality.

Should there be no response within the 14 days as stipulated in the reminder/demand letter, and the debtor has an account for water consumption levies but no electricity, water is disconnected (restricted for residential consumers) at the consumption address after 14 days, and notice to that effect is left at the premise. The account of the debtor is debited with the cost of this action at the approved tariff of the municipality.

If the amount for rates and taxes owed by the owner of the property is not paid after the specific date, the Municipality may recover the amount in whole or in part from a tenant or occupier of the property, to the extent as provided for section 28 of the Property Rates Act. The municipality may recover an amount only after it has served a written notice on the tenant or occupier. The services of such a property will be disconnected or restricted as provided by law.

In the further absence of a response to electricity cu-off, the cut-off is inspected after seven (7) days to ensure that the service is still disconnected. If there is an illegal connection, it is again disconnected with the relevant notification, but then by way of a more expensive and comprehensive procedure to ensure a more tamperproof disconnection. The account of the debtor is debited with the higher cost of the cut-off at an approved tariff of the municipality, and the security deposit is raised to an amount equal to two (2) months consumption of services. The difference between the current deposit and recalculated amount will be debited against the consumers' account if it is higher than the currently held deposit. The Accounting Officer may also instruct that a prepaid electricity meter be installed at the cost of the consumer and electricity supply be restricted and vending of prepaid services blocked until requirements of the Municipality are met.

If the debtor has a consolidated account that includes water consumption levies, the water supply is also disconnected or restricted for residential consumers, as the case may be, cut-off inspection is done and a notice to that effect is left at the premises. The account of the debtors is debited with the cost of this action at the approved tariff of the municipality.

6.3 Recovery of Rates in Arrears from Tenants or Occupiers

Section 28 of Property Rates Act makes provision for the following actions in case on non-payment of rates and taxes:

- I) If an amount due for rates levied in respect of a property is unpaid by the owner of the property after the date determined in terms of section 26(2), a municipality may recover the amount in whole or in part from a tenant or occupier of the property, despite any contractual obligation to the contrary on the tenant or occupier. The municipality may recover an amount only after it has served a written notice on the tenant or occupier.

- II) The amount a municipality may recover from the tenant or occupier of the property in terms of subsection (1) is limited to the amount of the rent or other money due and payable, but not yet paid, by the tenant or occupier to the owner of the property.
- III) Any amount a municipality recovers from the tenant or occupier of the property must be set off by the tenant or occupier against any money owed by the tenant or occupier to the owner.
- IV) The tenant or occupier of a property must, on request by a municipality, furnish the municipality with a written statement specifying all payments to be made by the tenant or occupier to the owner.

Action will also be instituted against illegal reconnections, tempering and transgressions of the Electricity By-Law and Water Supply By-Law

6.4 Illegal Reconnection of, or Tampering with, Electricity

If conservative follow-up actions due to a continuous lack of response by the consumer/debtor reveal that illegal consumption of service occurred or a disconnection has been tampered with, the service connection is removed.

6.5 Illegal Reconnection of, or Tampering with Water

The water disconnection or restriction is monitored and followed up in cases of lack of response by the debtor or consumer to ensure that disconnection or restriction is not tampered with. Interference with disconnection at water services of non-residential household consumers will lead to the removal of service connection. Any first-time discovery of tampering with a restriction device or service connection at the address of a residential households consumer will lead to restriction of the water flow to the quantity of the monthly free water allocation to residential households (indigents only). Further tampering after such a restriction will lead to the prosecution of that residential household consumer.

6.6 Credit Control Measures on Accounts for Prepaid Electricity

If a property has a prepaid electricity meter and the other municipal services and taxes/taxes are in arrears, the prepaid electricity meter will be disconnected and buying of electricity will be blocked.

60/40 approach will be used as the credit control mechanism to recoup arrears in other services owed to the municipality. 60% represents the outstanding debt and 40% represents the purchases of pre-paid electricity, provided the current account is paid in full on a monthly basis.

6.7 Disconnection Procedures

Electricity

That the order procedure of disconnection of electricity to defaulters be as follows:

- (i) Switch off the circuit breaker and seal it [if the method fails - (ii) applies]; (defaulters).
- (ii) The removal of the circuit breaker. [If the method fails - (iii) applies];(defaulters).
- (iii) The removal of a meter. [If method (i) and (ii) fails – method (iii) applies and if the customer fails to pay or replace them or re-connect in some other way] (Illegal connection and or any other)
- (iv) Removal of the underground supply cable. [If the resident fails to pay or replace them or re-connect in some other way - (iv) applies]. (Illegal connection and or any other). A notice will be issued in this regard.

7. Debt Collection Measures

Legal steps are taken to collect arrears on all the accounts that are more than 90 days in arrears.

Interest at a rate of 10% per annum will be charged on all overdue accounts.

7.1 Internal Legal Process

The account and details of the debtor are investigated before a summons is prepared. The data of an appointed credit bureau are utilised for this purpose, resulting in telephonic contact with the debtor, which obviates the need for summoning.

The tracing and telephone costs are debited to the account of the debtor at the approved tariff of the municipality (Excluding indigents). If the debtors are officials and councillors of the municipality, arrears may be collected from their salaries or allowances.

If service debtors' accounts are in arrears, final letter of demand shall be sent to them regarding all accounts that are more than 90 days in arrears for payment within 14 days.

7.1.1 Municipal Staff and Councillors in Arrears

- 7.1.1.1 Staff arrears will be dealt with in accordance with schedule 2 of the systems Act, and in terms of any procedures, method or actions referred to by this Policy. Notwithstanding any other procedure, method or any action that may be taken in terms of this Policy, the Municipality shall deduct any outstanding amount from such staff members' salary after this 3 (three) month period.

7.1.1.2 In accordance with Schedule 1, item 12A of the Systems Act, a Councillor of the Municipality may not be more than 3 (three) month in arrears of the municipal service fees, surcharges on fees, property rates or any other municipal taxes, levies and duties levied by the Municipality. Notwithstanding any other procedure, method or action that may be taken in terms of this Policy, the Municipality shall deduct any outstanding amount from such Councillor's remuneration after this 3 (three) month period.

7.1.2 Arrear accounts in excess of R100 000.00 that are to be summonsed at High Court or Regional Court matters, which are referred to Legal Services Division of the Municipality for summonsing in collaboration with a panel of attorneys.

7.1.3 Arrear accounts of less than R100 000.00 are Magistrate Court matters for which the relevant summonses are issued. The different sheriffs of the courts deliver these summonses to the relevant debtors. The expenses of issuing and delivery of the summonses are debited to the debtors' accounts.

If debtors responded to the summonses received within 5 working days after delivery by a sheriff, by either payment in full or partial payment and arrangement for monthly payment of the balance, no further legal costs are debited by the attorneys or debt collection agent, and the matter is not further pursued for as long as the debtor complies with the monthly payment as per the arrangement

7.1.4 Summonses not responded to within 5 working days are referred to the local Magistrate's Court in collaboration with the collection agents, who have jurisdiction in these courts. Default judgement and warrants of execution are obtained and the relevant debtor is also automatically blacklisted at the major credit bureaus. A notice of the judgement is posted to the debtor by registered mail.

7.1.5 Worst case scenario, default judgements not responded to within a further 10 working days give rise to activation of the warrants of execution, which can either order the sale of property of the debtor to recover arrears, or order the debtor to be evicted in case of arrear rentals. If the debtor has no fixed property, a court order can be served on him or her to appear in court, and the magistrate can approve a garnishee order or an emoluments attachment order to recover the debt. A garnishee order will be signed simultaneously with an instalment plan to pay the arrears. Failure to comply with the agreed instalment plan will lead to an application for an immediate court approval to continue with the garnishee order.

7.2 External Legal Process

- 7.2.1 All accounts not paid within 30 days and are in arrears and may be blacklisted through credit bureau agencies after legal steps have been taken in terms of chapter 4 of the National Credit Act, 2005 (Act 34 of 2005).
- 7.2.2 The Accounting Officer may outsource the process of debt collection regarding any portion or category of the debtor book to collection agents. Any cost that arises from such action will be recovered from the debtor. The following principles will apply to agreements with the debt collectors:
- 7.2.2.1 The Municipality may, when any consumer is more than 90 days in arrears and no agreement have been entered into between the consumers and the Municipality, commence handing over the consumer to the debt collectors. At the discretion of the Accounting Officer the days at which the account can be handed over for collection may be reduced to 60 days.
 - 7.2.2.2 A “no success, no fee” will be agreed between the Municipality and debt collectors.
 - 7.2.2.3 The Municipality requires regular progress and statistical reports from the debt collectors.
 - 7.2.2.4 Complete records will be kept of all the steps taken to collect arrears, and these records will be available to the Municipality.
 - 7.2.2.5 All the costs of this process are for the consumer and the Municipality shall recover these costs from the debtor through its panel of attorneys.
 - 7.2.2.6 Individual consumer accounts are protected and are not the subject of public information. However, The Municipality may release consumer information to credit bureaus.
 - 7.2.2.7 Customers will be informed of the powers, duties and responsibility to observe agreed codes of conduct of such debt collectors.
 - 7.2.2.8 Any cash or any bank-guaranteed cheque for the full outstanding balance reflected on the accounts will be deemed acceptable payment before a customer’s credit motive to be updated on the credit bureau.

7.3 Irrecoverable Debt

7.3.1 Criteria for irrecoverable debt

Debt will only be considered as irrecoverable if it complies with the following criteria:

7.3.1.1 all reasonable notifications and cost effective legal avenues have been exhausted to recover a specific outstanding amount; or

7.3.1.2 any amount equal to or less than R500.00 or as determined by Council from time to time, will be considered too small, after having followed basic checks, to warrant further endeavours to collect it; or

7.3.1.3 the cost to recover the debt does not warrant further action; or

7.3.1.4 the amount outstanding is the residue after payment of a dividend in the rand from an insolvent estate; or

- I. there is a danger of a contribution; or
- II. no dividend will accrue to creditors ;or

8.2 Arrangements

8.2.1 Principles for Residential Debtors

According to the following instalment plan, arrangements for payment can be entered into between the municipality (Finance Department's Debt Collection and Credit Control Section) and debtors, either to prevent debt collection measures or to normalise service delivery (reconnection) after credit control measures were instituted.

- 8.2.1.1 Full Settlement of the amount for which action was taken.
- 8.2.1.2 Partial settlement of preferably 60% of the arrear amount, but less than the sum total of the last month's current levies, and entering into a repayment contract with the municipality for monthly repayment of the balance over a period not exceeding twelve (12) months.
 - i. When a debtor enters into a payment arrangement plan with the municipality, an upfront deposit amount will be requested and the amount paid will determine the period of repayment. It is the Accounting Officer's prerogative to decide on the parameters of an arrangement plan with customers.
 - ii. All debtors entering into arrangements shall provide proof of income to determine affordability and those with the facility to sign a debit order with their banking institution shall do so.
 - iii. With regards to business accounts and other parastatal accounts, a 60% upfront partial deposit on the capital amount will be requested and limited to a payment period of twelve (12) months.
- 8.2.1.3 The payment period can in cases of special merit be extended beyond twelve (12) months, but not more than 24 months, at the discretion of the Accounting Officer. The extension period must reflect a balance between the municipality's best financial interests as well as the customer's interest.
- 8.2.1.4 The discretion of the Accounting Officer is exercised within the following parameters:
 - i. If no partial settlement is possible immediately, it can be extended to the end of that month or included in the monthly repayment contract.
 - ii. Monthly repayment contracts can be made interest free under the following conditions:

- iii. Extension for normal full payment of a current account which has no arrear balance can be made until the end of a month or next salary payment date of an employed client

8.2.1.5 Breaching of repayment contracts is regarded as a violation of this Policy and will lead to renewed disconnection of services as well as legal procedures to collect the arrears.

8.2.1.6 In cases of such contract breach, services can only be reconnected and legal procedures put in abeyance after the reinstatement of the contract by payment of all repayment instalments in arrears and the unpaid current account,

8.2.1.7 In cases where the reinstatement of a breached contract is not possible, a new repayment contract can be considered due to unforeseen financial and personal circumstances of the debtor. In such cases, the municipality to save on the current levies by either curbing consumption or by requesting some of the services to be discontinued or restricted for an agreed period of time. By so doing, the repayment of the arrears together with the current account is made more affordable. In cases where the debtor is unable to enter into an arrangement due to affordability thereof, the interest levied and collection costs should be taken into consideration for possible reversal to assist the consumer. The customer can then enter into an arrangement for the lowered debt amount.

8.2.1.8 Agreement with employer

Section 103 of the Municipal Systems Act, 2000 (Act 32 of 2000) reads as follows:
