

Quarterly Borrowing Monitoring Return Form (Version 210405_1300)

Purpose:
In terms of Circular 26 of the Municipal Finance Management Act (MFMA), municipalities are required to submit the borrowing form upon completion. National Treasury (NT) uses this information to analyse the overall municipal borrowing market with a view to increasing access to capital for infrastructure projects. This will enable National Treasury to make proper analysis that informs policy developments on the overall municipal borrowing market. This will assist NT to provide sound advice to municipalities that intend to incur additional borrowings as required by section 46(3)(a)(ii) of the MFMA.

Format of Return Form:
The return is an Excel spreadsheet with three worksheets (loans, bonds and instructions) and must be submitted electronically each quarter to National Treasury even if the municipality has no borrowings to report. The database is expecting specific data with specific attributes, the templates should not be changed. If this is not found, problems will arise. This return form must be submitted each quarter within 15 working days of the end of the quarter. Ensure the file is saved in the correct format (Muncode_BM_ccyy_Qn.xls) by selecting the correct MunCode, Financial year, period and NO in the case of a NIL return from the drop-down lists.

You may use the inbuilt macro to automatically save using the correct file name. Simultaneously press Shift+Ctrl+S (With "Caps Lock" off) to invoke the macro. Email the Excel (.xls) file to lgdatabase@treasury.gov.za with a subject heading of Financial Reporting Database Input.

Loans/ bonds worksheets

The loans worksheet requires each individual loan instrument to be listed and certain attributes for each completed. The columns are wide enough to display the full descriptions of the drop down lists. This worksheet has been protected.

- All figures are to be entered in whole Rands
